Professional Summary

Software Developer (MERN Stack) and BCA 2026 graduate with a 6-month MERN certification and 3 internships. Built and deployed 3 full-stack web applications (real-time chat app, expense tracker, e-commerce platform) with React.js, Node.js, Express.js, MongoDB and Mongoose, including RESTful APIs, JWT authentication, Socket.io, MVC architecture, Git/GitHub and Postman API testing. Seeking an entry-level MERN Stack Developer, Full Stack Developer or Software Developer role.

Technical Skills

Languages: JavaScript (ES6+), SQL, HTML5, CSS3
Frontend: React.js, React Hooks, Tailwind CSS, Responsive Web Design, Component-Based Architecture
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, Socket.io
Databases: MongoDB, Mongoose (ODM), SQL
Tools & Deployment: Git, GitHub, Postman, Vercel, Netlify, Render
Concepts: MVC Architecture, REST API Design, CRUD Operations, API Testing, Debugging, Authentication & Authorization

Projects

Expense Tracker Live | GitHub | 2026
React.js, Node.js, Express.js, MongoDB, Mongoose, JWT
- Built and deployed a responsive MERN expense tracker to add, edit, delete and categorize income and expenses.
- Developed CRUD RESTful APIs with Node.js and Express.js, using Mongoose models for MongoDB data storage.
- Created reusable React components with Hooks for state management and REST API integration.

Real-Time Chat Application Live | GitHub | 2026
React.js, Node.js, Express.js, MongoDB, Mongoose, Socket.io, JWT
- Built and deployed a full-stack MERN real-time chat application with instant messaging using Socket.io.
- Implemented JWT authentication and secured Express.js REST API routes using custom middleware.
- Developed a responsive React.js frontend using Hooks for state management and live message updates.

Garment Shopping & Management Platform Live | GitHub | 2025
React.js, Node.js, Express.js, MongoDB, Mongoose, REST API, JWT
- Developed and deployed a full-stack MERN e-commerce and garment management platform with CRUD operations.
- Built Express.js REST APIs with Mongoose models for 3 core modules: inventory, orders and users.
- Designed a responsive React.js frontend for product browsing, shopping cart and order management.

Experience

MERN Stack Development Training May 2026 – Oct 2026
Jspiders
- Completed 6-month hands-on MERN Stack course covering React.js, Node.js, Express.js and MongoDB.
- Practiced REST API development, JWT authentication, CRUD operations and database design with Mongoose.

MERN Stack Intern Jul 2025
Srishti Innovative Educational Services
- Built a Contact Management Module using React.js, Node.js, Express.js and MongoDB (full-stack, end to end).
- Developed 4 RESTful API endpoints (create, read, update, delete) for contact records and tested them in Postman.

UI/UX Design Intern Jan 2025
G-TEC Computer Education
- Designed a 4-screen mobile app UI in Figma for a tree-planting app (dashboard, details, plant form, map).
- Created a consistent green design system with reusable cards, buttons, input fields and navigation.

Web Development Intern Jan 2024 – Jul 2024
Jen Technologies
- Developed responsive web pages with HTML5, CSS3 and JavaScript during a 180-day internship program.
- Implemented DOM manipulation and form handling; used Git and GitHub for version control.

Education

Scott Christian College 2023 – 2026
Bachelor of Computer Applications (BCA), CGPA: 7.35/10

St. Mary's Higher Secondary School 2021 – 2023
Higher Secondary Certificate (HSC), 63.5%

St. Mary's Higher Secondary School 2020 – 2021
Secondary School Leaving Certificate (SSLC), 80%
